

## *City Council Memorandum*

**To: Mayor Fasbender & City Councilmembers**  
**From: Chris Jenkins, Parks & Recreation Director**  
**Date: January 16, 2024**  
**Item: Budget Amendment**

**Council Action Requested:** Approve requested budget amendment to replace the failed hot water heater.

**Background Information:** The water heater that failed is used to make hot water for the ice resurfacing operation at the Hastings Civic Arena. Hot water is essential to maintaining quality ice, and there is no work around or temporary fix.

The failed hot water heater is just over 10 years old, and holds 80 gallons of hot water that is constantly circulated through another larger, 300 gallon holding tank, which provides the hot water volume necessary to maintain 2 sheets of ice.

**Financial Impact:**

This is an unplanned, emergency repair costing \$15,750.00. Staff suggest using Arena Fund Balance to cover this expense.

**Advisory Commission Discussion:**

N/A

**Council Committee Discussion:**
