

Vermillion Street Corridor Advisory Coalition Interest Form

The City of Hastings is seeking volunteers to serve on an Advisory Coalition to help assist in the preparation of the Vermillion Street Corridor Plan. This Plan will provide a foundation for decision-making, based on community consensus, vision, existing conditions and future potentials. The Plan will help to identify opportunities for redevelopment and economic growth, within the corridor study area.

The Coalition will be responsible for guiding and overseeing the drafting of various elements of the Plan. In order to provide a consistent and representative community voice, our goal is to formulate a Coalition consisting of individuals representing a variety of organizations, businesses and interests. The Coalition will work with City staff and the consulting team to oversee the roughly twelve-month planning process.

While there is not a regular meeting schedule, individuals will be expected to be available at different points in the process to review materials, meet with the consultant team and attend public workshops and meetings.

If you are interested and know that you can dedicate the time during the entire planning process, please submit your application by June 14, 2017 to:

Morgan Hill, Economic Development Coordinator
101 4TH Street East
Hastings, MN 55033
mhill@hastingsmn.gov
(651) 480-2379

The application is also available at: <http://www.hastingsmn.gov/business/vermillion-street-corridor-study>.

Please note that there will be other opportunities to participate in the process, beyond serving on the Coalition. This includes community meetings, workshops, interviews and focus groups. A project website will also be setup to further expand our outreach, including questionnaires for residents and business owners, in addition to a customized mapping tool.

Thank you for your interest in assisting the City of Hastings with this important process.

To give us a better understanding of your interests and background, please provide the following:
