Data Practices Notice

Every city in Minnesota must comply with the Minnesota Government Data Practices Act (MGDPA), which, in conjunction with other state and federal laws, classifies all government data. Government data are classified in different categories depending on whether they are accessible by the public.

Government data means all data collected, created, received, maintained or disseminated by the City regardless of its physical form, storage media or conditions of use. There is a presumption that government data are public and are accessible by the public for inspection and copying unless there is a federal law, state statute or temporary classification of data that provides differently.

The data supplied in this application will be used to assess the qualifications for a license. This data is not legally required but the City will not be able to grant the license without it. If a license is granted, the data will constitute a public record. The data is needed to distinguish this application from others, to identify this application in city license files, to verify the identity of the applicant, to contact the applicant if additional information is required and to determine if the applicant meets all ordinance requirements.

I hereby certify that all statements made in this application are true and complete and understand that any misstatements or omissions of material facts may result in disqualification or denial of the license. I agree to abide by the provisions of this application and all applicable City polices and ordinances.
