

City Council Memorandum

To: Mayor Fasbender & City Councilmembers
From: Dan Wietecha, City Administrator
Date: September 5, 2023
Item: Licensing and Zoning Cannabis Ordinance Updates

Council Action Requested:

Refer Cannabis Ordinance updates to Public Safety Committee.

Background Information:

At the March 6, 2023, meeting, City Council adopted the current Licensing and Zoning Cannabis Ordinances. The approval followed deliberation by the Public Safety Advisory Commission and the Public Safety Committee.

As noted in the Council packet memo, at that time, the State Legislature was discussing Adult-Use Cannabis legislation and it was unclear as to what, if anything, was going to be approved. Since that time, new legislation has been approved and necessitates review of some provisions of the current ordinances.

The Public Safety Committee of Council can review the features of the legislation that impact the local ordinance and make recommendations for updates.
